

Word Wall Activities

1	Add an Ending	The students take out their notebooks and add endings (s, ed, ing) to each of the words where appropriate.
2	Alphabetical Order	Depending on the number of word wall words, students can alphabetize all of them or they can alphabetize the first 20 or last 20 words.
3	Around the World	All the students sit in a circle (or in their desks) One student stands behind another student who is sitting. The teacher flashes them a word. Whichever child says or defines the word first will move on to the next student. The student who makes it back to his or her own desk or starting point is the winner.
4	Ball Toss	Put students in small groups. The leader of the group shares one thing learned about a particular word on the word wall, then toss the ball to someone in the group. That student shares something different, and so on.
5	Bang!	All the sight words learned are put in a box. The students sit in a circle and each take a word from the box. If they can read or define the word, they get to keep it. If they cannot, the word is returned to the box. If they pull a card with the word "Bang!" from the box, all the cards they have collected so far must be returned to the box. The child with the greatest number of cards when the game ends is the winner.
6	Baseball	Materials: Words at 4 different levels (from simple to more difficult). Make them on different colored cards and have the type of hit that each color represents posted somewhere that everyone can see it clearly. Designate different places in the room as 1st base, 2nd base, 3rd base, and homeplate. Divide the students into 2 teams. Designate one team as the home team, and the other as the visitors. Mix up the cards. The children take turns going to the homeplate. Draw out a card and let the child attempt to read or define the word. If the student can read the card correctly, he or she may move according to the type of hit. (A single: move 1 base, a double: move 2 bases, a triple: move 3 bases, and a homerun: go all the way to home plate.) Make sure that you have included some strike out cards and walk cards among the word cards. If the student is unable to read or define the word, it is considered an out. After 3 outs, the next team gets to "Bat". Keep the score so that everyone can see.
7	Basketball	Set up in the classroom as a mini basketball court. Use masking tape to create on the floor a foul line that shots will be taken from. Prepare in advance a vocabulary activity employing words that are included on the students' word wall. Prepare at least one question for each student in the class. Arrange the class into 2 to 4 teams. Ask one of the questions you prepared of the first student on the first team. If a student identifies the correct word-wall word, that student earns a point. He or she also gets a chance to double his or her score (earn two points for the team) by trying to shoot a basket. A successful shot earns that second point; there is no penalty for a missed shot. If the student does not identify the correct word-wall word, pass the question to the first player on the next team. At the end of the game, the team with the most points is declared the winning team.

Word Wall Activities

8	Cartoon Captions	Give students a collection of comics from the Sunday paper and have them each choose a strip. Tell them to cut the strip apart and glue three of the individual panels in sequence on a piece of paper. Then have the students write new captions under each of the panels or in the speech bubbles, using words from the word wall to create a story. Have students share their cartoon captions with the class.
9	Categories	Name a category, such as parts of speech, opposites, location, etc., and ask students to call out words from the word wall that are in the given category. Ask students to choose category topics according to the words that are on the word wall and allow them to move the words until they are in their correct categories.
10	Change a Letter	Students try to make new words by changing just one letter. This can also be played in teams.
11	Charades	Students act words from the word wall and guess which word is being acted out. Put students in teams and record scores to determine the winner.
12	Erasing Relay	Write two columns of words on the board that are approximately equal in difficulty. Include as many words on the board as there are children in the relay. Children are divided into 2 teams, and will stand in two lines at right angles to the chalkboard. At the signal, the first child in each line points at the first word in his respective column of words and reads or defines that word. If he or she reads or defines the word correctly, he or she is allowed to erase that word. The game is won by the side that erases all the words first.
13	Flashlight Word	Start off the game by turning off the lights and pointing the flashlight at a particular word on the Word Wall. The teacher calls on a student to read or define the word. When the child has read or defines the word, it is their turn to shine the flashlight on a word and call on another student to read or define. The children really enjoy this because they get a chance to "be the teacher."
14	Guess My Word Wall Word	Teacher gives clues about each word. This activity can be done in a couple of ways. The teacher gets the students to number off from 1 to 10 in their notebooks and gives clues about the word. The student then writes down what they believe the word is. The other method is to do the activity orally and let a student point to the word on the word wall.
15	Hot Seat	In this activity, one student is selected to come to the front of the class and take the "hot seat." The hot seat is located a few feet in front of a chalkboard, whiteboard, or chart. The student sits in a chair facing his or her classmates and with his or her back to the board or chart. The student also should have a clear view of the class word wall. The teacher or a classmate selects a word from the word wall (or from students' spelling or vocabulary lists) and writes that word on the board or chart. The student in the hot seat is unable to see the word, but it is his/her job to guess the word by asking questions that help to narrow down the possibilities. As the student narrows down the word, the questions might get more specific. Keep a tally of the number of questions/clues it takes for the student to guess the word. Which student(s) guess the word in the fewest number of clues?

Word Wall Activities

16	Missing Word	Remove a word from the wall and maybe rearrange the remaining words. Have students figure out which word is missing. May need to give clues to help them figure out what is missing.
17	Mind Reader	In this activity, students are given clues to identify a mystery word that appears on the classroom word wall. The teacher selects a mystery word and then gives the students five clues for identifying the word. Each successive clue should help students narrow down their choice. As you give each clue, students should select one word from the word wall that matches the clue. For example, the mystery word is pollution . Clue 1: The mystery word is one of our word wall words. Clue 2: The mystery word has more than six letters. Clue 3: The mystery word has three syllables. Clue 4: The mystery word ends with the suffix -tion. Clue 5: The mystery word rhymes with the word solution. After you have given the five clues, have students show their responses. Which student(s) guessed the mystery word with the fewest possible clues? Each student who guesses the correct word at the earliest possible clue earns a point. Tally points at the end of the game to determine which students are the winners.
18	On the Back	Students work with partners and draw the word with their finger on their partner's back. When the student guesses the word, they trade places.
19	Peer Test	Students take turns testing each other on the spelling or meaning of each of the words
20	Pictionary	Each team chooses one person to begin drawing; this position rotates with each word. The drawer chooses a word from the word wall and tries to draw pictures which suggest the word. The pictures cannot contain any numbers or letters. The teammates try to guess the word the drawing is intended to represent without the drawer talking to teammates. Use a timer to limit their time on guessing. The team that guesses the word first gets to advance and take the next turn. If none of the teams guess the word, the turn passes to whichever team should have been next.
21	Poem Definition	Use a word from the word wall to create a poem: Line 1: Name it. Line 2: Describe it, rename it. Line 3: Tell where it would be found. Line 4: Tell more about it. Line 5: Use emotion words to tell how you feel about this. Line 6: Explain why you used the emotion words in Line 5
22	Rhymes	Give students a word and ask them to identify a rhyming word from the word wall. Have students create a list of rhyming words for words on the word wall. Have them write a poem or rap using these rhyming words.
23	Scavenger Hunt	Use old magazines or newspapers. Students try to locate as many of the word wall words as they can, they can cut them out and paste them into their notebooks.
24	Sentence Frames	Use sentence frames and have students use words from the Word Wall to fill in by writing and/or discussion.
25	Sign Language	Have sign language pictures are available. Students use sign language to spell the word the teacher says.

Word Wall Activities

26	Sounds Like....	The teacher says a word that sounds like the word wall word, for instance in the case of 'are' the teacher would say "sounds like far" and the students write down or says what they think the word wall is.
27	Stand Up Sit down	Teacher reads a passage with words from word wall in it. When students hear a word in the passage that is on the word wall, then students stand up. When they hear another word from the word wall, students sit down and so on.
28	Tic-Tac-Toe	Divide the class into two teams of X's and O's. Write words in the tic-tac-toe spaces. Team members take turns coming up and selecting a space. If the child reads or defines the word correctly, he or she may put up an X or O for his or her team. If the answer is incorrect, the other team gets to send a player to the board to try to read or define the same word. An easy alternative to save time and keep the game moving is to have several tic-tac-toe boards made up with words ahead of time on overhead transparencies. Another alternative is to give each child a blank copy of the tic tac toe board, and put the list of words on the board. The children can place the words wherever they want to on their board. As the teacher calls the words out, she will have to tell the children if the word is an X word or an O word. The first child to get tic-tac-toe is the winner.
29	Who Wants to Read Like a Millionaire?	Divide the class into two teams. Using index cards prepared with the sight words, give each student a chance to read or define a word (going back and forth from team to team). The student may use a lifeline and call a friend in the classroom to help them read the word.
30	Word Pyramid	Students write the word wall word first, the second line write two antonyms, and the third line write three synonyms. On line four, students add four describing words. On line five they use the word in a sentence.
31	Word Sorts	Write 10-15 words on large index cards and place in a pocket chart. Have students write these words on separate smaller cards or papers at their desks. Have students sort the words into different piles depending on some features certain words share. Students may sort all words that begin with a certain sound, have a certain vowel sound, contain a certain blend or digraph, etc.
32	Word Wall Snap	The class forms 2 lines. The teacher is in front of the 2 lines. The teacher points to a word wall (or uses the word wall cards), the first student to say the definition of the word remains in front of the line. The other student goes to the back of the line and the 2 students in front continue on.
33	Word Wall Stories	Students use as many of the word wall words as they can to write a story.
34	WORDO	In this activity, the students write down a stated number of word wall words in boxes. The teacher then randomly states the names of some of the word wall words. As she says the words, the students underline the word or put a chip over the word. The first one to have their words read out by the teacher first is the winner. Just like BINGO

“ALL
WORDS

INSTITUTE 2013

Interactive Word Wall

Tracy E. Dennis, M.Ed.

tracy.dennis@esc13.txed.net

512-919-5223

**What do you
currently
have on your
walls?**

Objectives

Content Objective

Identify ways to make word walls more interactive and how to use word walls efficiently and effectively.

Language Objective

Explain what makes word wall interactive and use a rubric to identify the strengths and weaknesses of various word walls.

What are Word Walls?

Word wall

is a teaching tool used to enhance literacy by displaying a collection of common vocabulary/sight words

Gallery Walk

Which word wall is my favorite?

Which word wall I don't like?

Why Word Walls?

- Anchor words in **long-term memory**
- Develops a **print-rich** environment
- Form important **links** in concepts
- Easily **accessible** for all students

Why Word Walls?

- Facilitate **word analysis**
- Promote **cooperative group learning**
- Develop a growing **core of words** that become part of a reading and writing vocabulary
- Foster **reading** and **writing**

Why Word Walls?

- **Motivate** students to learn more words
- **Visual record** of skills and content
- **Visual map** of connections between words and characteristics that form categories

Why Word Walls?

- Support the usage of words to construct **knowledgeable conversations**

- **Highlight** difficult concepts
- Develop **independence** by visually scaffolding key information

Types of Word Walls

- High frequency word wall
- Common patterns, phonograms, phrases wall
- Content or thematic wall
- Genre wall
- Current events wall
- Personal wall
- ABC wall
- Words-We-Know wall
- Chunking wall
- Help wall
- Name wall
- Literature word wall
- Prefix/suffix wall
- Compare/contrast wall

Gallery Walk

What type of word wall is it?

What is the purpose of the Word Wall?

Build ELLs Vocabulary

Strategies:

- Language-Rich Environment
- Word Wall
- Word Sorts
- Graphic Organizers
- Vocabulary Self–Collection
- Personal Dictionaries
- Word Study Books

Build ELLs Vocabulary

Students should:

- Develop **ways to learn** words
- **Personalize** word learning
- Be **immersed** in words
- Learn words through **repeated exposures** in **multiple ways**

Build ELLs Vocabulary

In order to develop deep understanding of words, students need to see, hear, and use new terms in many contexts.

HOW MANY WORD WALLS
SHOULD A CLASSROOM
HAVE?

WHO SHOULD HAVE WORD
WALLS IN THEIR
CLASSROOMS?

Creating Word Walls

- **Be selective** about what words go on the wall.
- Use words **developmentally appropriate** for students in the classroom.
- **Add words gradually**, approximately 5 a week.
- Make words **very accessible** by putting them where everyone can see them, possibly easy to manipulate.
- Write them **big** and in **black or bold** colors.
- Vary **background colors**.
- Include **pictures**.

Creating Word Walls

The BEST
Word Walls are
student created.

Word Wall Rubric

	4	3	2	1
	Completely student generated	Some student generated and some teacher generated	Teacher generated	Commercially generated
	Definitions in students' own words with examples and/or non-examples	Definitions in student friendly terms with examples and/or non-examples some provided by teacher and some provided by students	Dictionary definition and some examples and/or non-examples provided by the teacher	Dictionary definition or no definition with no examples or non-examples provided
	Inclusion of multiple, student created non-linguistic representations	Inclusion of some student and some teacher created non-linguistic representations	Inclusion of teacher only created non-linguistic representations	No non-linguistic representations
	Easily accessible in order to manipulate and able to read from a distance	Somewhat accessible and some can be manipulated, but can be easily read even from a distance	Cannot be read from a distance, but is accessible and can be manipulated	Not accessible, cannot be manipulated, and difficult to read from a distance

How do the Word Walls Rate?

Word Introduction

Four Volunteers, Please

Tips for Introducing Words to the Wall

- Charades
- Hot Potato

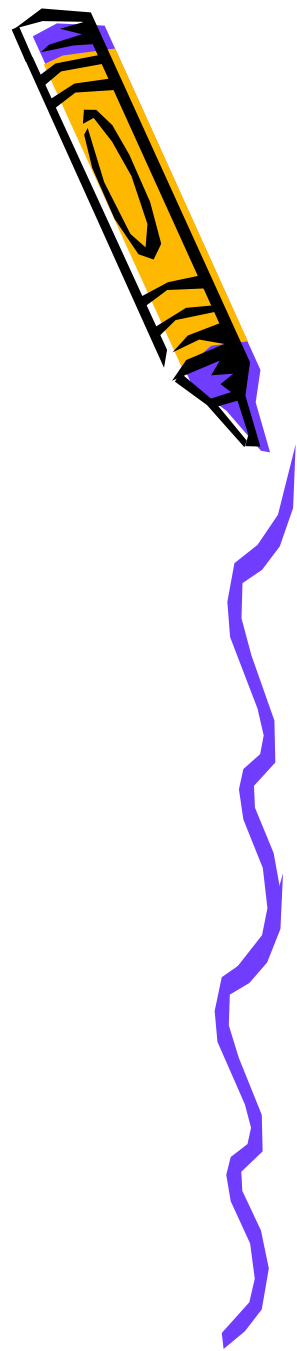

- Mystery box
- Scrambled

- Wheel of Fortune

Introducing Words to the Word Wall

Word Wall

It is a tool to **use**, not
just a display.

Definition for Interactive Word Wall

An **interactive**, ongoing collection of systematically organized key words that **changes** from unit to unit.

Using the Wall

- **Incorporate** into your daily instruction
- Plan time to **write with the words**
- Use **review activities** to practice so the words become automatic for students
- **Model how to use** the Word Wall

Using the Wall

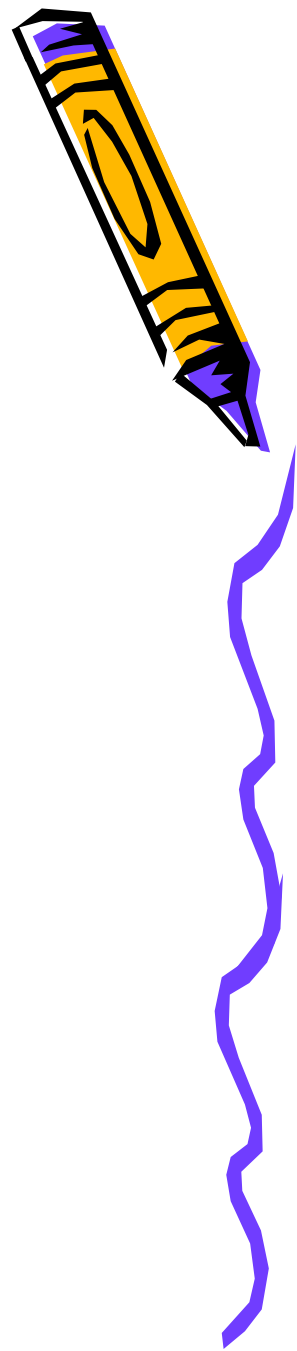

- **Sort and categorize** words & phrases
- **Refer** to those words **often**
- Have students **interact with** the Word Wall
- Provide **conversational scaffolds** that structure the ways that students study, think about, and use words

Using the Wall

Interacting with Word Walls

Record Words

- Students create **personal dictionaries** of key words for them to refer to when reading and writing
- Words can be **listed**:
 - alphabetically
 - thematically
 - phonetically, etc.
- Students can:
 - write definitions
 - copy the pronunciation
 - draw a picture
 - translate into own language
 - create own sentence for each word

What to Avoid

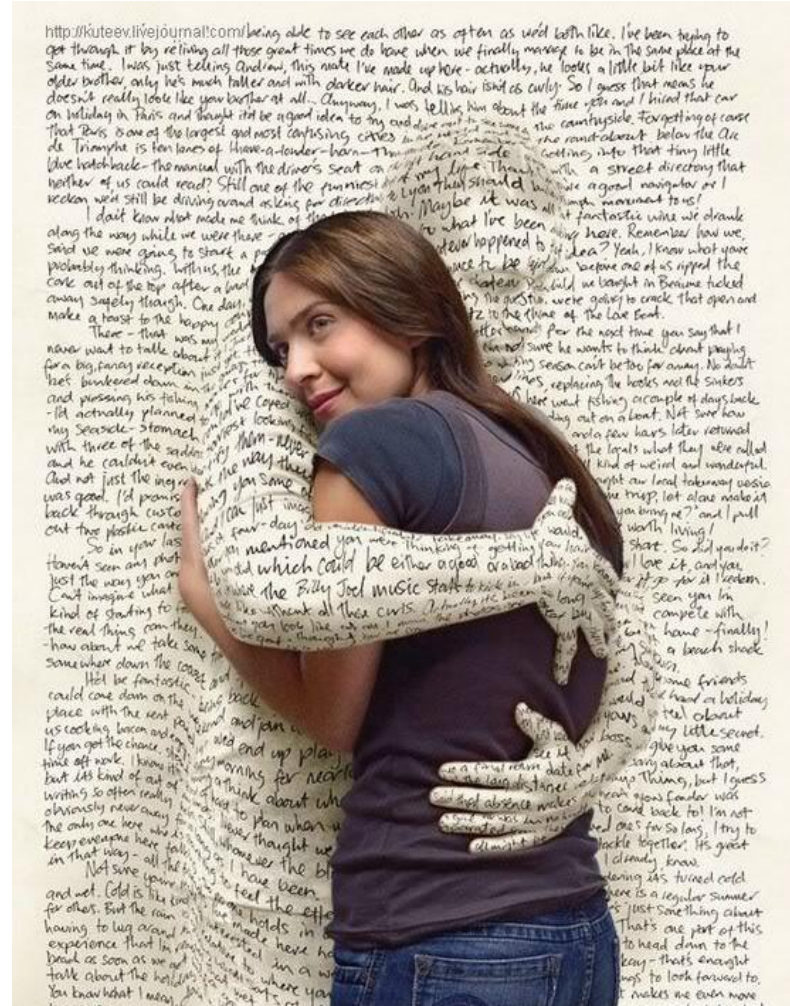

- Do not simply put up words somewhere in the classroom and tell students to use them.
- Do not use posters and flashcards created by publishing companies.
- Do not treat a word wall like decoration.

Promote Word Consciousness

- ♥ Look up words
- ♥ Harvest words
- ♥ Group words
- ♥ Examine words
- ♥ Categorize words
- ♥ Sort words
- ♥ Manipulate words
- ♥ Enjoy words
- ♥ Collect words
- ♥ Share words
- ♥ Take pride in knowing words

THANK YOU!

Tracy Dennis

Independence

Freedom from the control of others-ability to make your own choices

Representative Democracy

A democracy where the citizens elect leaders to vote on issues.

National

Government for the whole country

State

Government for the state but not the entire country

Local

American Government

Executive branch

The executive branch of government is responsible for enforcing the laws. The president is head of the executive branch for our country.

Legislative Branch

The legislative branch is the branch of government responsible for making the laws. The legislative branch of the national government is called Congress.

Judicial Branch

The judicial branch of government is responsible for interpreting the laws. The

Liberty

Another word for freedom

government

The way an organization or group is managed and controlled

government services

Services that are provided by the government and paid for with tax dollars

COO

Workin
con

Numeral
A symbol used to represent a number.
7
Number and Operations in Base Ten

Number
Indicates how many or how much.
 2 frogs
Number and Operations in Base Ten

Place Value
The value of a number due to its position in a number.

8	4	2
100	10	1

Number and Operations in Base Ten

Expanded Form
Another way to write a number that shows the place value of each digit.
276 = 2 hundreds, 7 tens, and 6 ones
Number and Operations in Base Ten

Odd
An odd number does not have equal parts. Think lonely one.
An odd number has 1, 3, 5, or 7 in the ones place.
 3 is odd
Operations and Algebraic Thinking

Compare
To decide if one number is bigger, smaller, or equal to another number.
Example: 5 is more than 2

Operations and Algebraic Thinking

Even
Can be shown in 2 equal parts. Think partners.
An even number has 0, 2, 4, 6, or 8 in the ones place.
 8 is even
Operations and Algebraic Thinking

Addend
Any number being added.
Example: $4 + 2 = 6$

Operations and Algebraic Thinking

Ones
A single unit or object
 3 ones
Number and Operations in Base Ten

Sequence
Numbers in a particular order.
1, 2, 3, 4, ...
Number and Operations in Base Ten

Digit
Any number from 0 to 9.
0, 1, 2, 3, 4, 5, 6, 7, 8, 9
Operations and Algebraic Thinking

Sum
The answer to an addition problem.
 $8 + 7 = 15$

Operations and Algebraic Thinking

Tens
Something with ten parts or units.
 $50 = 5$ tens
Number and Operations in Base Ten

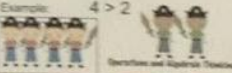

Skip Count
Counting forwards or backwards by a number other than 1.
2, 4, 6, 8, 10
Number and Operations in Base Ten

Equal to
Having the same amount, size, number, or value.
 $2 + 1$ is equal to 3
Operations and Algebraic Thinking

Strategies
Methods in which to solve a problem.

Operations and Algebraic Thinking

Hundreds
Refers to the number 100. Describes the place value of a number.
854
Number and Operations in Base Ten

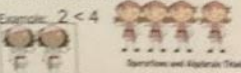

Commutative Property of Addition
Addends can be added in any order and the sum stays the same.

Number and Operations in Base Ten

Greater than
Comparing two or more numbers, and the first number is larger than the second number.
Example: $4 > 2$

Operations and Algebraic Thinking

Plus
Another word for adding-putting together two or more quantities.
 $7 + 8 = 15$
Operations and Algebraic Thinking

Thousands
Refers to the number 1000. Describes the place value of a number.
 $5000 = 5$ thousands
Number and Operations in Base Ten

Number Line
A line with numbers placed in the correct position.

Number and Operations in Base Ten

Less than
Comparing two or more numbers, and the first number is smaller than the second number.
Example: $2 < 4$

Operations and Algebraic Thinking

Add
To combine or put together two or more quantities.
Example: $2 + 3 = 5$

Operations and Algebraic Thinking

Doubles
An addition fact with 2 addends that are the same.

Word Wall

mood/tone.
The feeling or atmosphere of a story.

Personification

Hyperbole: An EXTREME exaggeration!
Example of the often used saying: "I'm as light as a feather!"

Personification - an object or thing that is given human features.

Suspense

Metaphor is a figure of speech in which two things are compared, usually by saying one thing is another.

Personification

JOURNEY

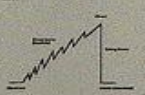

Hyperbole
An extreme exaggeration or overstatement.
Example: "It was hotter than the Empire State Building."

Foreshadowing
a literary device in which an author drops subtle hints about plot developments to come later in the story.

Plot Diagram

Theme
Definition: The message or lesson that the author wants to convey.

MOOD / TONE

Journey:
The act of traveling from one place to another.

Conflict

FORESHADOWING
Definition: the use of hints or clues to suggest what will happen in the future.

Hyperbole
Extreme exaggeration or overstatement.

NARRATOR
A PERSON BEHIND THE SCENES TELLING IN THE BACKGROUND THE STORY.

Personification
Giving human attributes or actions to inanimate things or abstracts.

Foreshadowing
The use of hints or clues to suggest what will happen later in the story.

Plot Diagram

Narrator
Someone who tells a story.

SUSPENSE!

Mood/Tone
Definition: The feeling or attitude of a story.

Word
of the
Week

Handwritten notes on a piece of paper, possibly a map or a list, with some drawings.

Handwritten word "Diversity" in colorful letters on a blue background.

Handwritten word "Simile" in black on an orange background with a pencil drawing.

Handwritten word "FORESHADOW" in black on a yellow background with a sun icon.

Handwritten word "Descriptive" in black on a light blue background with an arrow pointing up.

Handwritten word "SIMILE" in black on a light blue background.

Handwritten word "Quality" in purple on a purple background.

Handwritten word "Analyze" in black on a red background with a tree drawing.

Yellow oval sticker with text: "Jessica DeLong 2004-2007 Proud to be a Golden Bear!"

Handwritten word "Cliff" in black on a pink background with a drawing of a cliff.

Handwritten word "THEME" in black on a light blue background.

Handwritten word "Illustration!" in black on a yellow background.

Handwritten word "Cliff" in black on a light blue background.

Handwritten word "Compare" in black on a purple background with a drawing of two figures.

Black sticker with the number "246" in white.

Handwritten word "Quality" in black on an orange background with a speech bubble drawing.

Handwritten word "CLIFF HANGER" in black on a blue background with a drawing of a cliff.

Handwritten word "Descriptive" in black on a purple background with a spiral drawing.

Handwritten word "THEME" in black on a blue background with a drawing of a beach scene.

Handwritten word "THEME" in black on an orange background with a drawing of a structure.

Handwritten word "Caricature" in black on an orange background.

Handwritten word "cooperate" in black on a blue background.

Handwritten word "Parasites!" in black on a blue background.

Handwritten word "Analyze" in black on a red background.

Word Wall

Use the word wall to help you find the right way to spell tricky words.

There, Their or They're?
 There: Your coat is over there.
 Their: That is their car.
 They're: They're going on holiday tomorrow.

To, Too or Two?
 To: I went to the park.
 Too: I have eaten too much chocolate.
 Two: There are two apples on the table.

By or Buy?
 By: I'll wait by the bus stop.
 Buy: I'm going to buy you a present.

Knew or New?
 Knew: I knew how to do it.
 New: My jumper is new.

Four or Far?
 Four: I have got four pencils.
 Far: Shall we go far or walk?

No or Know?
 No: No, you can't do that!
 Know: Do you know the right answer?

Where or wear?
 Where: Where are you going?
 Wear: What are you going to wear?

Write or Right?
 Write: Write down the date.
 Right: You got the answer right.

Hear or Here?
 Hear: I can hear what you're saying.
 Here: Bring that book here.

CONDITIONAL STATEMENT

HYPOTHESIS

CONCLUSION

COUNTER EXAMPLE

PROOF

- PROPERTIES OF EQUALITY

BOILING POINT

- the temperature at which a liquid begins to boil and turns into a gas

DIATION

- the process of changing from a gas or vapour into a liquid

CONDENSATION

VAPORIZATION

- a rapid conversion of a liquid into a gas or vapour, sometimes known as boiling

- the change of state from a solid into a gas directly

SUBLIMATION

INSULATOR

- a substance that prevents the passage of heat, sound, or electricity

EVAPORATION

- the change of state from a liquid to a gas

HEAT CAPACITY

- the measure of the amount of heat needed to raise the temperature of 1kg of a substance by 1°C

- a decrease in the volume of an object

CONTRACTION

ATION

- the heat of

Scale

Math Symbols		
+	"plus"	$2 + 2 = 4$
-	"minus"	$5 - 3 = 2$
x	"times"	$3 \times 2 = 6$
÷	"divided by"	$9 \div 3 = 3$
=	"is equal to"	$8 + 1 = 9$
≠	"is not equal to"	$8 + 1 \neq 8$
>	"is greater than"	$12 > 9$
<	"is less than"	$5 < 18$

- Connected Sides \cong (adjacent)
- $\angle BAD \cong \angle DCB$
- Diagonals are \perp
- BD bisects AC
- BD bisects $\angle ABC$ & $\angle ADC$

* REGULAR POLYGON

- * All Sides \cong
- * All Angles \cong

- Ex:
- * EQUILATERAL
 - * Square
 - * STOP SIGN

REGULAR POLYGON

TRAPEZOID
 Trapezoid with the top side parallel to the base
 Sum of interior angles = 360°

ISOSCELES TRAPEZOID

ISOSCELES TRAPEZOID

- BASE ANGLES
- SAME SIDE INTERIOR \angle 'S
- DIAGONALS \cong

Parallelogram

- opposite sides \cong and \parallel
- opposite angles \cong
- Same Side adjacent angles Supplementary ($\cong 180^\circ$)
- Diagonals bisect each other

Rectangle

- It is a parallelogram
- 4 right angles
- Diagonals are congruent

Rhombus

Rhombus

- 4 congruent sides
- The diagonals are perpendicular
- It is a parallelogram
- The diagonals bisect the angles

SQUARE SQUARE

SQUARE

- It is a parallelogram
- It is a rectangle
- It is a rhombus
- Diagonals \cong
- Diagonals bisect the angles

Life in the Sea

- Beluga
- humpback whale
- hammer head shark
- white whale
- cod
- Cucumber
- Sea hares
- dolphin
- orca whale
- coral
- penguin
- Jelly fish
- sea polyps
- sea star
- sea anemone
- sea otter
- manatee
- clam
- green sea turtle
- giant clam
- Seal
- blue whale
- sea urchin
- mussel
- sting ray
- lobster
- eel
- puffer fish
- parrot fish
- brain coral
- white shark
- medusa
- shrimp
- angel fish
- Big Eye Fish
- lemon Shark
- Portuguese Man of War
- octopus
- squid
- clam
- manta

Word Wall Rubric

4	3	2	1
Completely student generated	Some student generated and some teacher generated	Teacher generated	Commercially generated
Definitions in students' own words with examples and/or non-examples	Definitions in student friendly terms with examples and/or non-examples some provided by teacher and some provided by students	Dictionary definition and some examples and/or non-examples provided by the teacher	Dictionary definition or no definition with no examples or non-examples provided
Inclusion of multiple, student created non-linguistic representations	Inclusion of some student and some teacher created non-linguistic representations	Inclusion of teacher only created non-linguistic representations	No non-linguistic representations
Easily accessible in order to manipulate and able to read from a distance	Somewhat accessible and some can be manipulated, but can be easily read even from a distance	Cannot be read from a distance, but is accessible and can be manipulated	Not accessible, cannot be manipulated, and difficult to read from a distance
